Goals for Today

- Reviewing the Georgia Performance Standards
- Using the Persuasive and Informational Genres to teach integrated language arts
- Continuing to plan for this "Teaching and Learning" Year

Essential Questions

- How do I analyze the new K-3 Writing Standards/Elements?
- How do I analyze student work, write commentary, and give feedback?
- How do I teach the genres using the three part instructional framework?
- What are some resources that can help?

Enduring Understandings

- Requiring students to write and read in a variety of genres and for different purposes is important.
- Using the major tenets of the GPS backwards design will help to implement the curriculum.
- Making the reading and writing connection will increase student learning.
Please remember to ask yourself as you reflect...

- How can our school/system continue to improve on our overall writing program as we seek to successfully make this change?
- What are some steps that we need to take to ensure that students will be receiving instruction in the new Standard/Elements?

Questions

- We will provide a brief time for asking questions at the end of each section. It is important that questions stay on topic and reflect the current activity.
- Please pay attention to questions asked so that there is no repeating of questions. This will aid in effective participation.

Random Sharing

- Please be prepared to share throughout the day.
- Representatives from K-2 and 3-5 at various ETCs will be randomly asked to share with entire audience.

Explicitly Teach/Model With Persuasive Genre (W1 vs. W2)

**ELA 3W1**

- Captures a reader's interest by setting a purpose and developing a point of view
- Begins to select a focus and an organizational pattern based on purpose, genre, expectations, audience, and length
- Writes text of a length appropriate to address the topic or tell the story
- Uses organizational patterns for conveying information
Explicitly Teach/Model With Persuasive Genre (W1 vs. W2)

a. Captures a reader's interest by stating a clear position/opinion and developing a point of view
b. Sustains a focus
c. Includes the appropriate purpose, expectations, and length for audience and the genre
d. Adds supportive details throughout the paper that may include relevant examples, facts, and anecdotes

e. Uses appropriate organizational structures to ensure coherence (introduction, body, conclusion) and appropriate formats (speech, brochure, advertisement, movie, and book reviews)

f. Provides a sense of closure
g. May include prewriting
h. May include a revised and edited draft
i. May be published

COMPARING AND CONTRASTING W1 & W2 for Persuasive Elements

Third Draft

W1
- Begins w/ a thesis
- States a clear position/opinion
- States main argument
- Provides specific details

W2
- Begins w/ a clear position/opinion
- States a clear position/opinion
- States main argument
- Provides specific details

- Be positive.

Vaccinations

What! How can some people be against vaccination? Well, believe it or not some people are against vaccination! I am not against vaccination. Are you? Here I am to prove that vaccination is good to children to prevent diseases. Read my paragraphs to hear my facts about my opinion.

If you don't vaccinate your child then it endangers other children. If your child has chicken pox and has not been vaccinated he can spread it to other children! If your child is vaccinated then his classmates aren't in danger. A woman from the internet said, "If too many kids aren't vaccinated then the ones who are vaccinated are in risk of danger!" This is one of my facts to prove that you should vaccinate your child.

Although the vaccination is not 100% perfect it still increases the resistance to the diseases. It helps the odds decrease that carries around and expose to other people. Vaccination is good for children although that it isn't 100% sure it still causes a small chance of causing a problem, but the risks are much smaller if the children is vaccinated.

Well, did you hear what I had to say? I backed up my opinion with facts. Now do you think children should be vaccinated against diseases? I still think you should. If you agree with me then go out there and vaccinate your child if you haven't. Thank you for listening to my opinion. Goodbye!
Providing Student Commentary

- Choose 2-3 strengths/positives to share with student about his/her piece.
- Be specific by sharing with the student about examples and strategies used in piece.
- Use the LOTS, but also be kid-friendly.
Providing Student Feedback

- Next, choose 1-2 next steps for the student to take in order to show improvement.
- Remember to prioritize needs.
- Remember to think BALANCE between content and conventions.
- Use the LOTS, but also be kid-friendly.
